SVNH Seniors Hub Evaluation Introduction

The evaluation framework is guided by South Vancouver Senior's Hub outcome measurement framework (OMF). The OMF is designed to capture, highlight, monitor and assess all of the important work done by Hub, its partners, and volunteers. The evaluation team consists of researchers from the Centre for Hip Health and Mobility and staff members from South Vancouver Neighbourhood House. The purpose of this work is to evaluate the Hub model, so that we and others can learn from the development and implementation of this novel, collaborative approach. Guided by the OMF, the evaluation tools are designed to capture outreach to seniors, how intersectional relations are developing and function, how community needs and program opportunities are addressed, and how the hub model fosters community capacity-building. We will take a mixed-methods approach, using both qualitative and quantitative methods to complete the evaluation.

Evaluation Timeline- 2012-2014

Evaluation Timeline 2012- 2014

Tool 1: Seniors HUB Meeting Agenda & Notes Template

Purpose: A standardized template to use at all Seniors HUB Advisory Committee Meetings (aka ‘the steering committee’).

User: Copies of the agenda will be circulated to each person at the meeting. The note-taker will take down KEY notes for each section of the agenda. These notes will be kept for future reference & record-keeping

Preface to Tools 3, 4 (and 4.a, 4.b.)

Monthly meeting evaluations (includes the facilitator & participant evaluations, the observations entered into the observations template by a member of the evaluation team, and the follow-up summary report)

Purpose - The purpose of these tools is to capture what is working well in the meetings, opportunities for improvements, and allows us to quickly measure the number of participants, number of hours volunteered, and general comments from the seniors.

Who it is administered by - CHHM team (Joan in absence of team)

Who fills it out - senior's council members, staff & evaluation team members

At what activities it is administered - Monthly meetings

How often it is administered - Every month

Follow-up- Tool 4.b- Each month the results of the evaluations are circulated in a summary report. These results are emailed to the Hub coordinator, Volunteer Coordinator and the Hub Executive Committee (president, vice-president and secretary)

Tool 4.a: Seniors Hub - Meetings & Activities - Observations

Template

Date:

Observer:

Type of Activity being observed:

What worked well with this event or meeting?

What are some of the most recent successes of the Hub?

Are there any opportunities for improvement?

Are there any particular challenges that the Hub is currently facing?

Did a senior share a story or demonstrate any of the following: Community engagement; leadership in the Hub; active participation in the Hub; take ownership of a particular task; take on a new role; learn a new skill; develop a new relational tie due to the Hub. Please describe, with as much detail as possible.

Tool 4.b: Seniors Hub – Monthly Summary Report of Meetings

SAMPLE:

- Participants rated the meeting as **9.1 out of a possible 10**
- **100%** of the participants felt that there was **enough time**
- **89%** of the participants indicated **a specific task that they will take responsibility for in the coming month**

- Volunteers offered the following suggestions for improvement at the next meeting:
 - *Proof read reports prior to meeting*
 - *Complete additional research on topics that are relevant for the Hub, such as possible transportation solutions*
 - *Bring the Governance Manual to show and discuss with members*

How did people prepare for the meeting?

Brought their binder	Brought materials	Spoke to/ emailed other volunteers	Reviewed the agenda	Read the reports
71%	100%	43%	100%	100%

We tracked **120 volunteer hours** on the Seniors Hub this month.

Congratulations on your many successes!

Preface to Tool 5 - Levels of collaboration survey (collaboration inventories)

Purpose This tool captures the number of groups linked to the hub and number of collaborative actions taken up by hub partners. A brief description of the collaborative actions is also captured. This tool will also help us to see change over time, as we have been collecting this data since the inception of the Hub.

Who it is administered by: Joan

Who fills it out? ALL members of the inter-agency team

At what activities it is administered: At the regular inter-agency partner meetings

How often it is administered - Every six months (Approx. January & July)

Tool 5: Collaborations Inventory

Purpose of the Collaborations Inventory: Because the HUB will rely on building relationships and collaborations with other partners, the collaboration inventory will allow us to track, over time (e.g. every 6 months), the development of key partnerships. Ideally, partnerships will evolve from Level 0 (no interaction) to Level 5 (collaboration). Note that the outputs of this tool (i.e. the scores and partnerships) can also be mapped visually.

User: to be completed by staff members representing each partner organization

Collaborations Inventory

(Adapted from Frey et al. (2006) Levels of Collaboration Survey)

Please review the descriptions of the different levels of collaborations. Using the 0-5 scale provided, please indicate what 'level' you are currently at with each partner. All partners of the HUB could fill this out independently.

Name: _____ Organization: _____ Date: _____

Five Levels of Collaboration

Relationship Characteristics	No interaction 0	Networking 1	Cooperation 2	Coordination 3	Coalition 4	Collaboration 5
	- no interaction, but identified as a potential partner	- Aware of organization - Loosely defined roles - Little communication - All decisions made independently	- Provide information to each other - Somewhat defined roles - Formal communication - All decisions are made independently	- Share information and resources - Defined roles - Frequent communication - Some shared decision making	- Share ideas - Share resources - Frequent and prioritized communication - All members have a vote in decision making	- Members belong to one system - Frequent communication is characterized by mutual trust - Consensus is reached on all decisions

Preface to Tool 7 - Focus group guide

Purpose This tool picks up examples of how the knowledge and skills contributed by seniors enhances community capacity. Older adult participants will have the opportunity to share their perspectives and listen to one another's ideas. It is more subjective, more comprehensive, and captures the finer details about what they think and how they feel about their experiences with the Hub.

Who it is administered by: By CHHM Team

Who fills it out? The participants will be the volunteer members of the Seniors Advisory Council

At what activities it is administered: This will be a planned event, to be held after a regular seniors advisory council meeting

How often it is administered: Annually (November/December)

Tool 7: Focus group Guide

Introduction

Thank you for participating in this small group discussion. My name is <Moderator should introduce yourself > and I will be providing some directions for this discussion. Today we would like to have a discussion about “how you have grown and benefited from your active participation in the Seniors Hub” For roughly the next hour what we are trying to do today is to gain an understanding of: what you like about participating in the Hub? The changes are you observing in yourself? And what skills and relationships you have gained? For all of the questions asked we invite you to think of yourself, and your own experiences here at the Hub. Does anyone have any questions?

We are also joined today by <introduction of note taker>, who will be taking notes and running the tape recorder throughout the discussion. The recording is so we have an accurate record of what everyone says. From the recording, a written copy of the discussion will be made. Any identifying information, including your names, places or other personal information will be removed or replaced with a code to make the transcript anonymous.

Are there any questions?

Each of you has now completed the consent form and the questionnaire. We would like to remind you that you may withdraw from the discussion anytime, and that any question that you have can be answered by the research team (moderator and note taker). We also ask that each of you remember the consent form you signed, where you agreed that “what is said at this table, stays at this table.”

Before we begin, we will go over a few ground rules. First, can we please all turn off our cell phones, so we are not interrupted? Next, it is important to remember that we must take turns talking so the note taker can keep track of what was said. One of my jobs today is to make sure we discuss a few important topics. So if I interrupt you to ask questions, please don't think I am being rude; I am making sure everyone has a chance to contribute and that we discuss all of the important issues. We believe there is value in what each of you is here to say, and we encourage everyone to be respectful of others and their opinions. Does anyone have any questions?

Opening Question

Purpose: to get people talking and feeling comfortable with an easy –to-answer question that does not highlight any power and status difference between participants

- Just to get started, tell us your name and your favorite food
 - The use of ice-breaking question is to be done at the discretion of the moderator, to avoid initial power dominance.
 - Point to anyone in the circle ; randomly selecting will encourage people to not “go in order” for the discussion

Introductory questions

*Purpose-*introduce the topic of discussion; get people thinking about their connection to the topics. This is an opportunity for participants to share their perspectives. It is important to give everyone a chance to speak at the beginning of the focus group, so as to prevent one or two voices from dominating the discussion. Focus of this set of questions- **To discuss examples of new skills gained**

- Would you like to mention a few specific skills, talents or something which you have learned through your participation in the Hub?
- Have you developed new skills through your participation in the Hub?
- What have you learned through your involvement with the Hub?

Questions

*Purpose-***to discuss examples of new social connections developed**

- Have you made friends here? If yes, can you describe the relationship?
- Do you think you know more people since you have started coming here?
 - Probe 1 are you helping each other?
 - Probe 2 are you spending some time with each other outside of the Hub meetings?

Questions

*Purpose-***to discuss examples of meaningful engagement and “active participation” in the Hub**

- How are you involved in activities here where you have a leadership role?
- How are you involved in the decision making process within the Hub?
- Do you feel that you are part of team where you have important role to play?
Please describe.

Questions

Purpose-to discuss examples of how the knowledge and skills contributed by seniors has enhanced community capacity

- How do you think you are helping your community through your participation in the Hub?

Questions

Purpose-One of the original objectives of the Hub was to support senior-led initiatives with inter-generational and inter-cultural aspects? We would like to discuss this.

- Through the Hub, are there any activities that you feel bring you closer to the younger generation? Probe 1: If yes, please describe. Probe 2- If no, is this something that you would like to the Hub to work on?
- Do you think you are involved in activities which provide you with a chance to deal with people of different ethnic backgrounds? What kind of activities are those? Probe 1: Do you think that there should be more opportunities to do so? If so, what would those activities look like?

Preface to Tool 8 - Interagency interviews

Purpose This tool captures the number and type of agency programs in the Hub, how the collaborative Hub model is functioning and evolving over time, and how services and programming for seniors are positively influenced by the hub model.

Who it is administered by: CHHM Team

Who fills it out? The participants will be staff members from the inter-agency partners

At what activities it is administered: These interviews will be scheduled individually with each participant, at a time and location that is convenient for them

How often it is administered: Annually (January/February)

Preface to Tool 9 (a-e) - Seniors Hub capacity building and engagement surveys

Purpose This tool determines the percentage of isolated vulnerable seniors who have reported that they have improved access to services and information that supports their physical, emotional and cultural needs. This tool will determine the percentage of seniors from different backgrounds that participate in skill building opportunities. It will capture new skills gained and new social connections developed through participation in the hub. It will also capture the percentage of seniors involved who report meaningful engagement in hub activities; the percentage of seniors participating in active leadership and mentor roles; and the percentage of seniors in roles as leaders, mentors and volunteers who believe their contributions are building community capacity.

Who it is administered by: This will be distributed by Joan, members of the ‘Seniors Cluster team’, and older adults who are volunteers with the Seniors Advisory Committee. These individuals will also be responsible for collecting these surveys and returning them to a member of the CHHM evaluation team (e.g. Thea or Catherine).

Who fills it out? Any older adult who has participated in a Hub activity. This will include the members of the Seniors Advisory Committee, members of the various “sub-committees”, and anyone who has participated in a “Hub event” (e.g. the scooter rodeo, digital stories project, etc.).

At what activities it is administered: This will be administered at various activities, including the monthly Seniors Advisory council meetings, the various sub-committee meetings, and any activities where seniors are participating in “Hub activities”

How often it is administered: Annually (December/January)

If yes, can you provide an example? _____

Preface to Tool 10: OMF Monthly Stats Reporting from the Seniors Hub

Purpose This tool allows us to track key statistics from all of the SVNH staff members who complete activities related to the Seniors Hub. We enter this data into a master Excel file (see above)

Who it is administered by: The CHHM distributes a year's worth of these stats sheets annual.

Who fills it out? Seniors Cluster staff members at SVNH complete these stats sheets
